Subject: RE: Brookhaven National Lab SCREENING/REFERRAL ACB

Linda,

If ACB says the practice is acceptable, then I do not have the authority to undermine that decision.

Should the CEI be changed to include ACBs assessment?

Ron

Linda,

If you need any other clarifications, let me know. ACB provided the following:

Erin Floto

Physical Scientist, Referrals Coordinator

Division of Enforcement and Compliance Assistance
Environmental Protection Agency
Office: (212) 637-4007

Subject: RE: Brookhaven National Lab SCREENING/REFERRAL ACB

Erin,

We looked at the part of the document that needed CAA clarification with Joe Cardile (the CFC contact person in our branch), and concluded that moving the refrigerators and air conditioning units to a different building for the removal of the Freon gas and oil compressor draining by an EPA-licensed person is an acceptable practice.

Please, let us know if you have any other questions.

Thanks,

Julian

Robert/Julian,

I'm forwarding the following 45-day letter that CAPSB is requesting for some regulatory clarification on the CAA. As noted below, those screening observations begin on page 6.

https://usepa.sharepoint.com/sites/R2_Work/enforcement/CAPSB/layouts/15/guestaccess.aspx?guestaccesstoken=%2bOtj3njrd4y934hYFICZTy%2bLobHfgFEKUENk2VxZmxE%3d&docid=2_166e5880314424a1bb2b591126835fac1&rev=1

Please let me know the staff that you assign so I can give them access to the document. As of right now, everyone on this email has access to edit and provide comments.

Thanks!

Hi Erin. Here is Brookhaven National Lab, a federal facility (DOE). Ron conducted an inspection last July and did screening for CAA. The summary sheet identifies the screening observations (starting on page 6) and the CAA item needs regulatory clarification from ACB. Please send this as a referral to ACB. Thanks.
